- Familiarity with the **Microsoft Office suite (Word, Excel, PowerPoint, Outlook)**

SOFT SKILLS

Good and effective communication skills, problem solving, analytical and critical thinking, teamwork and collaboration, and time management skills.

PROJECTS

1. Police Complaint Management System using Blockchain Technology

- Developed a decentralized Police Complaint Management System using Blockchain (Ethereum) and IPFS, ensuring transparency, data integrity, and secure complaint handling.
- Implemented hashing algorithms (SHA-256) to guarantee tamper-proof records and leveraged IPFS for efficient storage and retrieval of large complaint-related files.
- The goal of this project is to create a secure, transparent, and user-friendly platform for filing and managing police complaints using blockchain technology.

2. Smart Home Website, TechSaksham Capstone

- Built a sleek, Full-Stack Development "Smart Home website" for seamless control and automation, driving user engagement and brand recognition.
- This project involves creating a full-stack smart home website enabling users to securely authenticate, manage, and control their IOT devices in real time.
- The goal is to enhance user convenience through a secure and efficient web interface.

CERTIFICATIONS

- Certified in AWS DevOps Specialization from Coursera.
- Certified in Introduction to Cyber Security.
- Certified in Web Application Development internship.
- Certified in Full-Stack Development by KodNest.
- Certified in MOOCs from NPTEL in Software Testing (IIIT).
- Certified in MOOCs from NPTEL in Data Analytics with Python.
