SUMMARY

To get an opportunity where I can make the best of my potential and contribute to the organization's growth and also create value for my prospective employer through my dedicated and diligent efforts

INTERNSHIP

Python Classroom Training

Participated in Python training, focusing on core programming concepts, data structures, and object-oriented programming principles. Developed small-scale projects to apply Python coding skills in solving real-world problems. Engaged in hands-on coding sessions, collaborating with peers to enhance problem-solving and debugging abilities. Gained proficiency in writing clean, efficient Python code for automation and basic application development.

Web Designing

Collaborated with a team to design and develop responsive, user-friendly websites using HTML and CSS. Created visually appealing layouts and optimized web interfaces for enhanced user experience. Assisted in translating design prototypes into functional web pages, ensuring cross-browser compatibility and adherence to web standards. Contributed to project documentation and gained hands-on experience with tools like Figma.
