Objective

Recent Computer Science graduate with a solid foundation in automation testing, skilled in designing test cases, identifying defects, and ensuring software quality. Proficient in Java for test scripting and passionate about delivering reliable, user-focused applications through rigorous testing processes. Excited to grow as a QA professional by working on challenging projects and adopting modern testing tools.

Skills

Testing: Manual Testing, Automation Testing, Agile

Tools: Selenium WebDriver, Jira, Git, IntelliJ, Eclipse

Programming: Java, Python, MySQL

Frameworks: TestNG, Django

API Testing: Rest Assured

Soft Skills: Teamwork, Adaptability, Leadership, Fast Learner

Projects

Test Automation for SauceDemo E-commerce Website

Role: QA Tester (Selenium + Java)

- Automated login, cart, and checkout scenarios using Selenium WebDriver.
- Implemented Page Object Model and TestNG for scalable test architecture.
- Read test data from Excel with Apache POI and generated reports.

Face Recognition-Based Elevator Access Control System

Role: Backend Developer (Django)

- Developed backend using Django and integrated DeepFace for authentication.
- Used PostgreSQL for user data management.
- Controlled elevator access logic based on authorized face recognition.

Education

Gandhi Institute of Technology and Management (GITAM)

B.Tech in Computer Science Engineering, 2021 – 2025

CGPA: 7.3 / 10

Narayana Junior College

Intermediate (MPC), 2019 – 2021

Percentage: 94%

Sree Valmiki High School

Secondary School (X), 2018 – 2019

Percentage: 95%

Certifications

- Java Programming – Great Learning
- Python for Everybody – Coursera
