## SUMMARY

---

Skilled full-stack developer with strong proficiency in the MERN stack and Flutter for cross-platform mobile app development. Proficient in multiple programming languages including Python, Java/Kotlin, JavaScript, Dart, SQL, and MongoDB. Passionate about building scalable, user-friendly applications and continuously learning new technologies.

## Experience

---

**EDUPROVA** | Next.js, Nest.js, Flutter, Redis, MongoDB 📅 2/2026 – Present

Online learning and career development platform integrating online courses, professional networking, job board, freelancing, messaging, AI-powered resume building, mock interviews, and communication coaching.

- Developed the AI Resume Builder and AI Communication Coach modules for the web platform, delivering AI-powered career development features for end users.
- Led end-to-end Flutter application integration, implementing backend connectivity, state management, and feature workflows across the mobile application.
- Integrated REST APIs and managed application state to ensure smooth data flow and consistent user experience throughout the app.

## PROJECTS

---

**API Craft** | Flutter | [🔗 link](#) 📅 12/2025 – Present

Built a Flutter-based API client as an alternative to Postman, consuming ~50% less memory. Supports HTTP, WebSocket, GraphQL, and scripting. Additionally, it supports template functions, and built-in proxy server support.

**Missed Call Base Attendance** | Flutter | [🔗 link](#) 📅 09/2025 – 10/2025

Developed a Flutter app that lets users mark attendance by giving a missed call to a designated number. The app intelligently reads call logs, monitors phone state, and integrates contacts — all while working fully offline. Built with a clean and modern Material 3 design.

**Expert Location and Communication** | React, Express.js, Socket.IO, Gemini Api | [🔗 link](#) 📅 Dec 2024 – Present

Developed a platform to streamline communication between students and tutors, enabling seamless Q&A, guidance, and peer learning. Implemented real-time interaction with Socket.IO, offline assistance using Gemini API, media handling with Firebase Storage, and data management with MongoDB. Built with React.js, Express.js, and Node.js.

**One Novel** | React, Express.js, MongoDB, Next.js | [🔗 onenovel](#) 📅 9/2024 – 11/ 2024

One Novel is a platform that allows you to earn money by referring your friends to buy books. You can earn a commission for every book sold through your referral link. Even you can earn by uploading your own books. The platform helps readers discover new titles while also supporting authors to showcase their work. It creates a simple and rewarding way to connect readers, writers, and book lovers in one place.

**Typing Website** | React | [🔗 typingss](#) 📅 1/9/2023 – 18/9/ 2023

Typing Practice Web App with advanced word filters like character count, inclusion/exclusion rules, and custom character sets. Supports multiple datasets a 3+ lakh word list with frequency control, facts and a smart random word generator. Users can adjust word complexity for personalized practice.

## CERTIFICATIONS

---

- Udemy Course Flutter & Dart Complete Guide
- Back-end Application Development with Node.js and Express
- Introduction to Web Development with HTML5, CSS3, and JavaScript
- Azure Fundamentals by Microsoft
- Udemy Course Java Programming Masterclass
- Python 101 for Data Science

## INTERNSHIPS

---

- Android Developer Virtual Internship by Edu Program
- Process Mining Virtual Internship by Celonis
- Cloud Virtual Internship by Aws Academy
- Machine Learning Foundations by Aws Academy

## TECHNICAL SKILLS

---

Languages : Python, Java, JavaScript, TypeScript, HTML/CSS, Kotlin, Dart, C/C++

Frameworks : React, Node.js, Express.js, Flutter, Svelte, Angular

DB/Tools : MongoDB, SQL (MySQL), Git, Docker

## EDUCATION

---

**Dadi Institute of Engineering and Technology**

2021 - 2025

Bachelor of Engineering in Computer Science

*CGPA: 7.74*

**Sri Chaitanya Jr College**

2019 - 2021

Board of Intermediate Education

*Percentage: 96.5%*
